OBJECTIVE / PROFESSIONAL SUMMARY

Enthusiastic and detail-oriented individual with a strong foundation in Python, web development, data analysis and DSA Algorithms. Eager to contribute to impactful projects and continuously grow in the tech industry.

EDUCATION

- | | |
|---|---------------------|
| • B.Tech – Computer Science and Information Technology (CGPA-8.5)
REVA University, Bengaluru | 2022-Present |
| • 12th PUC-Physics, Chemistry, Mathematics, Computer Science (CGPA-6.8)
Sri Vidya Mandir Independent PU College, Bengaluru | 2020-2022 |
| • 10th Standard SSLC(CGPA-9.5)
Sri Vidya Mandir Education Society, Bengaluru | 2019-2020 |

KEY SKILLS AND TOOLS

- **Programming Languages:** Python, Java, C, C++
- **Web Technologies:** HTML, CSS, JavaScript, ReactJS
- **Database Management:** MySQL, MongoDB
- **Software Development practices :** Scrum, SDLC, Agile
- **Soft Skills:** Debugging, Problem Solving, Communication
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook

INTERNSHIP

Shri Aikyam Solutions Private Limited–Software Engineering Intern

Jan 2026 – May 2026

- Worked as a Full Stack Developer Intern contributing to the development of web and Android applications. Built mobile features using Android Studio and integrated Firebase for authentication, real-time database management, and push notifications. Designed and consumed RESTful APIs, implemented backend logic, and managed data storage using MongoDB. Collaborated on real-time projects, optimized performance, debugged issues, and delivered scalable, production-ready solutions.

PROJECTS

Crop Recommendation system – [\[Live\]](#)

Created machine learning-based crop prediction model in Python using Scikit-learn, incorporating preprocessing, feature selection, and hyperparameter tuning. Achieved 94% accuracy on real-world agricultural datasets. Delivered a farmer-friendly AI web app for crop suggestions aimed at yield optimization.

Implement a Software Solution to Reduce Student Dropout Rates at Various Educational Status –[\[Github\]](#)

Developed a web-based student retention system using React.js, Spring Boot, MongoDB, and Machine Learning to identify students at risk of dropping out through predictive analytics. Analyzed attendance, academic performance, assignment submissions, and engagement data using the Random Forest algorithm to generate dropout risk predictions and personalized lecture recommendations. Implemented REST APIs and role-based dashboards for real-time student monitoring and data-driven academic intervention.

Medical Lab Report Analyzer –[\[Live\]](#)

Developed a full-stack web application using React (frontend) and FastAPI (backend) to upload, extract, and analyze real-world lab reports in PDF format. Used PyMuPDF and custom rules to parse test results and generate medical insights in real time with a clean, centered UI.

CERTIFICATIONS

- | | |
|---|------------------|
| • WhiteHat Jr – Certificate of Excellence in Python Programming | Dec 2022 |
| • Web Applications Development – Skill Development Program | Feb2023 |
| • Full Stack Development using Python – Skill Development Program | June 2023 |
| • Introduction to Cybersecurity – Cisco Networking Academy | Feb 2025 |
| • Data Analytics Job Simulation-Delloite | May 2025 |

ACHEIVEMENTS

- **Represented at Open National Level in Taekwondo**, showcasing discipline, agility, and competitive spirit.
- **Played Basketball at District Level**, demonstrating teamwork, leadership, and athleticism.
